

PIG® Soft-Top 4-Drum Spill Pallet

PAK6000 Holds (4) 210 ltr. Steel or Poly Drums, 284 L Sump Capacity, 4082 kg Load Capacity

Load your drums into this soft-top spill pallet for all-weather protection and liquid containment. You don't even have to remove pumps and funnels!

- Zipper doors on front and rear allow easy access to drum tops while the rest of the unit stays closed; store drums with pumps or funnels in place
- Low-profile pallet with sump catches leaks, drips, and spills while keeping drum tops and accessories within reach
- Weather-resistant design prevents contaminants from entering stormwater
- Heavy-duty construction allows entire unit to be lifted by forklift with drums in place; loaded drums must be properly secured before moving
- 18 oz. vinyl-coated fabric with UV inhibitors resists UV rays, rust, corrosion and most chemicals
- Hook and loop closures on the doors and sidewalls allow doors to stay open when loading and unloading drums
