

Acid & Alkali Storage Cabinet

CABL305 Holds 6 ltr., Manual-Close, 46cm x 46cm x 91.5cm

This rugged Storage Cabinet is designed to safely store corrosive liquids in compliance with the Control of Substances Hazardous to Health Regulations (COSHH).

- Welded construction in 0.9mm thick zinc-coated steel for extra corrosive resistance designed to store acids, caustics and corrosives safely
- High-visibilty white powder coated finish is marked with appropriate signage to enhance awareness of contents
- Adjustable spillage trays and liquid-tight sump tray act as shelving for small containers; design still allows liquids to drain through and collect in bottom sump
- Sump tray removes easily for emptying and to clean up spills
- Rebated door securely closes with a three-way chrome locking lever handle
- Additional Shelves and Support Stand sold separately
- Note: Liquids should be stored in their original, clearly labelled containers with the lids in the closed position to minimise corrosive vapour release. Any spillages should be immediately cleaned up and disposed of in a safe and appropriate manner.

Specifications
