

AdBlue® Lever Hand Pump Kit

PMPE123 For AdBlue, Antifreeze, Screen Wash, Pesticides and Fertilizers, 500mL/Stroke, Fits 50 to 210 ltr. Drum w/ 2" NPT/BSP Bung

Dispense AdBlue® with ease using a dedicated drum or IBC pump.

AdBlue® is a water based chemical solution, required by commercial vehicles, to help reduce pollution, and to comply with the Euro 4/5 directive. AdBlue® is not harmful however it is corrosive, and a normal fuel pump cannot be used for dispensing as AdBlue® must be kept pure, and any contaminants from rubber hoses/seals or metals will cause engine damage.

- The Lever Hand Pump Kit for AdBlue® has a 2-piece telescopic suction pipe (up to 98cm long), suitable for use with 50- to 210-litre drums
- Simple lever action to transfer fluid, with a 2m long outlet hose to dispense
- Includes extra Trisure/Valorex drum adaptor
- Suitable for use with AdBlue® & other water based fluids, antifreeze, windscreen washer fluid, herbicide, pesticides, insecticides & fertilizers
- Capable of up to 500ml per stroke

Specifications

Use With	AdBlue, Antifreeze, Screen Wash, Pesticides and Fertilizers
Style	Lever Operated
Colour	Blue/Black
Sold as	1 each
Weight	1.24 kg
# per Pallet	132
