

Battery Operated Syphon Pump

PMPE101 For Water and Non-Corrosive Liquids, Battery: DC 3V (2 x D Size), 1 each

Pump offers a low-cost, compact solution for liquid transfer from small containers or to empty containment pallet sumps.

- Battery operated unit can be used anywhere; no need to have a mains power source available
- Light-weight & compact design is easy to handle and use with small drums, 20L jerry cans, containers, tanks, small ponds and more
- Automatic operation with simple on/off button; no manual operation required
- Narrow 395mm long suction tube fits through the grates of all PIG® poly pallets & decks (sold separately), allowing liquids to be pumped out from sumps without removing drums
- Poly and steel construction is non-corrosive; pump can be used with a variety of non-corrosive liquids like water, light oils, diesel, kerosene and detergents
- Includes a 580mm long discharge hose for easy dispensing
- Efficient pump delivers approximately 8-10 litres per minute; powered by 2 'D' sized batteries (not included)

Use With	Water and Non-Corrosive Liquids
Colour	Red, Black & Grey
Explosion Proof	Not Explosion Proof
Variable Speed	Without Variable Speeds
Sold as	1 each
Weight	.25 kg
Composition	Wetted parts: Polyethylene, Polypropylene, Steel
Maximum Flow Rate	10 ltr./Minute
Maximum Viscosity	50 cSt, or SAE 20W Oil (@ 40°C)
Power Requirements	Battery: DC 3V (2 x D Size)
