

Easy-Grip Mechanical Gripper

TLSE314 86cm

Need to extend your reach? This Mechanical Gripper is ideal for picking up used absorbents without getting your hands dirty!

- Unique interlocking teeth provide a superior grip to ensure that what you pick up won't be released
- Lip design provides finger-tip precision capable of picking up a single hair
- Jaws rotate through 90 to suit user preference or application
- Lightweight and durable anodized aluminium shaft creates a robust tool that will stand up to use in your work facility
- Ergonomic handle with moulded rubber grip for user comfort
