High capacity cabinet holds up to 48 25-litre drums on three separate levels.

- Padlockable sliding doors for added security (padlock not included)
- Fully welded, leakproof sump catches leaks, drips and spills; helps prevent groundwater contamination
- Two fixed, perforated galvanised steel shelves and galvanised grid flooring; flooring removes easily for sump inspection and cleaning
- Vents located on upper and lower half of cabinet encourage air circulation within the cabinet
- Fully-welded, 2mm-thick steel construction offers improved strength and durability over riveted units; ideal storing flammables, chemicals and hazardous materials
