

# Floodstop Barrier Multi-Hub Connection Pod

PLSE311 40cm x 74cm x 90cm

The Floodstop Barrier Multi-Hub Connection Pod allows you to meet various gaps and angles with ease. It creates a clean and rapid connection to in-situ objects such as walls and buildings.

- Pods allow the user to create 60° to 90° corner units
- Connect the Multi-Hub Pod to the end of an assembled Floodstop Barrier, rotate the 'cam-like' pod into the in-situ object, typically a wall, to create an effective barrier
- If required, pre-fill with water ballast for extra stability
