HygiWell Disinfectant Foot Bath Mat

FLME246 55cm x 85cm x 16mm

Clean and sanitise shoes and prevent contamination from entering controlled areas with this disinfecting footbath - ideal for food processing entrances!

– Deep ‘well’ holds up to 1.75-litres of liquid disinfectant for effective cleaning of footwear at entrances
– Specially designed flexible “wave pattern” scrapers remove dirt and allow footwear to immerse in disinfectant
– Suitable for any location where hygiene is important such as farm buildings, abattoirs, and food processing factories
– Ramped edges reduce the risk of tripping.
– Use at doorways, packaging areas, laboratories, locker rooms, break rooms, refuse areas and receiving rooms - anyplace where spread of contamination must be limited
– It can be laid freely on the floor and its position can be changed as required.
– Use in combination with a moisture control mat such as our PIG Grippy Floor Mat or a Microfibre Doormat to minimize the risk of slipping in the area behind the disinfection mat
– 100% recyclable
– *Tip: use quaternary ammonium, iodine, chlorine or any other sanitiser but always test its concentration. Most sanitisers are concentrated and must be diluted before use in a footbath. Follow label directions for appropriate dilutions.

Colour	Black
Dimensions	55cm W x 85cm L x 16mm H
Recycled Content	100% Post-Consumer Recycled Rubber
Sold as	1 each

Weight	3.5 kg
Composition	PVC

Certifications, Approvals and Ratings

DIN51130 - R10,A+ BREEAM rating (Building Research Establishment Environmental Assessment Method)
