IBC Gravity Feed Kit

PMPE127 For Oil Based Liquids, Detergents & Mild Corrosives, 30 ltr./Minute, Fits 1000 ltr. IBC w/2" outlet valve

This IBC Gravity Feed Kit is ideal for filling smaller drums and containers. Suitable for AdBlue, diesel, light oils, and mild acids & caustics.

– 3 metre long dispensing hose fitted with trigger nozzle to control liquid flow
– Trigger can be latched open providing a flowrate of up to 30 litres per minute
– Uses gravity to dispense into containers positioned lower than the IBC
– Swivel hose fitting threads onto the 2" outlet valve on your IBC
– Will handle a wide variety of fluids including AdBlue, diesel, light oils, and mild acids & caustics

Use With	Oil Based Liquids, Detergents & Mild Corrosives
