

Kibosh FastFreeze Clamp for 15mm Pipes

TLSE260 For 15mm metal, plastic, and multi-layer pipes

The Kibosh FASTFREEZE Clamp is a fast and efficient pipe freezing solution to create and maintain an isolating ice plug for pipe isolation.

– Pipe freeze spray is injected into the freeze clamp to create a very focused freeze for rapid ice plug creation
– The contact foam inside the clamp cavity absorbs the freeze spray and allows it to evaporate slowly through the vent hole; this quickly cools down the pipe wall and the water, creating an isolating ice plug within the pipe
– Uses less freeze gas than traditional foam sleeves to create and maintain an isolating ice plug, and can be used on most types of pipe – copper, steel, plastic, lead or iron
– Used with Kibosh FASTFREEZE Spray, will freeze to -30°C, and will typically freeze a 15mm copper pipe in 3-5 minutes; can also be used with most other pipe freeze spray brands
– Fits in tight spaces and around clipped pipes and is designed to be re-used; the contact foam is also suitable for multiple uses
– The 15mm clamp accommodates 14mm – 16mm pipe, including: UK ½" copper (14.8mm), 15mm & 16mm/US 1/2″ pipes; also includes reducers for freezing 8-10mm micro-bore pipe

Use With	15mm metal, plastic, and multi-layer pipes
Repair Type	Temporary
Colour	Blue
Dimensions	70mm W x 60mm L x 52mm H
Temperature Limit	85°C (185°F) at 6 Bar
Sold as	1 each

Weight	.14 kg
Composition	Glass filled nylon, with foam insert
Includes	1 - 15mm FastFreeze Pipe Clamp 2 - Contact Foam Pads 4 - 8-10mm Pipe Reducers 1 - Fluid Insert Straw 1 - Instructions
