Kibosh FastFreeze Clamp for 22mm Pipes

TLSE261 For 22mm metal, plastic, and multi-layer pipes

The Kibosh FASTFREEZE Clamp is a fast and efficient pipe freezing solution to create and maintain an isolating ice plug for pipe isolation.

- Pipe freeze spray is injected into the freeze clamp to create a very focused freeze for rapid ice plug creation
- The contact foam inside the clamp cavity absorbs the freeze spray and allows it to evaporate slowly through the vent hole; this quickly cools down the pipe wall and the water, creating an isolating ice plug within the pipe
- Uses less freeze gas than traditional foam sleeves to create and maintain an isolating ice plug, and can be used on most types of pipe – copper, steel, plastic, lead or iron
- Used with Kibosh FASTFREEZE Spray, will freeze to -30°C, and will typically freeze a 15mm copper pipe in 3-5 minutes; can also be used with most other pipe freeze spray brands
- Fits in tight spaces and around clipped pipes and is designed to be re-used; the contact foam is also suitable for multiple uses
- The 22mm clamp accommodates 21mm – 22mm pipe, including: UK ¾" Copper (21mm), US ¾" pipes & ½" steel pipes

Use With	22mm metal, plastic, and multi-layer pipes
Repair Type	Temporary
Colour	Blue
Dimensions	70mm W x 63mm L x 62mm H
Temperature Limit	85°C (185°F) at 6 Bar
Sold as	1 each
Weight	.15 kg
Composition	Glass filled nylon, with foam insert

Includes	1 - 22mm FastFreeze Pipe Clamp 2 - Contact Foam Pads 1 - Fluid Insert Straw 1 - Instructions
