

Kibosh Fastfreeze Kit

TLSE265 For 15mm & 22mm metal, plastic, and multi-layer pipes

This Kibosh FASTFREEZE Kit contains everything you need to create a fast, effective ice plug.

– The Kibosh FASTFREEZE Clamp is a fast and efficient pipe freezing solution to create and maintain an isolating ice plug for pipe isolation.
– Pipe freeze spray is injected into the freeze clamp to create a very focused freeze for rapid ice plug creation
– The contact foam inside the clamp cavity absorbs the freeze spray and allows it to evaporate slowly through the vent hole; this quickly cools down the pipe wall and the water, creating an isolating ice plug within the pipe
– Includes 1 x 15mm and 1 x 22mm FASTFREEZE clamp, and 1 x large FASTFREEZE spray; allows this kit to work with 8-10mm micro-bore pipes, 14mm – 16mm pipes, and 21mm – 22mm pipes
– Uses less freeze gas than traditional foam sleeves to create and maintain an isolating ice plug, and can be used on most types of pipe – copper, steel, plastic, lead or iron
– Used with Kibosh FASTFREEZE Spray, will freeze to -30°C, and will typically freeze a 15mm copper pipe in 3-5 minutes; can also be used with most other pipe freeze spray brands
– Fits in tight spaces and around clipped pipes and is designed to be re-used; the contact foam is also suitable for multiple uses
– The 15mm clamp accommodates 14mm – 16mm pipe, including: UK ½” copper (14.8mm), 15mm & 16mm/US 1/2″ pipes; also includes reducers for freezing 8-10mm micro-bore pipe
– The 22mm clamp accommodates 21mm – 22mm pipe, including: UK ¾” Copper (21mm), US ¾” pipes & ½” steel pipes
