

Kibosh Rapid Pipe Repair Clamp for 15mm Pipes

TLSE250 For 15mm metal, plastic, and multi-layer pipes

The Kibosh Rapid Pipe Repair clamp is the fastest, most simple and effective emergency pipe repair solution available; just fit it round a leaking or burst pipe, and clamp it shut.

- Fits in tight spaces and joist notches, around clipped pipes, works on hot or cold pipes, and is suitable for copper, plastic and multilayer pipes and can even accommodate leaking pipe fittings!
- Stops leaks immediately to limit water damage and disruption, and once installed the pipe can continue to function normally again even under pressure up to 10Bar / 150PSI until a permanent repair is arranged
- Kibosh Rapid Repair Clamps are reusable, and are the perfect addition to any tool box; store in the “open” position to preserve the sealing gasket
- Simple to install, no tools required - open the clamp, place the housing (not attached to latch) behind the pipe, slide it over the leak and clamp shut
- Ideal for Plumbers, Joiners, Builders, Electricians, Carpet Fitters, as well as maintenance, service, janitorial and DIY’ers
- Use to respond to burst pipes from frost damage in winter, or accidental pipe perforation by a nail, drill or jigsaw; made from non-toxic materials it can be used on both water pipes and heating pipes
