Leak Diverter Hose Connector Pack

TLSE163 For Leak Diverter Bare Hose with No Connectors

Use the Leak Diverter Hose Connector Pack to connect any bare ½" or 12mm ID hose to a PIG Leak Diverter.

- With the barbed male connection secured in your hose with the included clip, this connects easily to the standard connection on a PIG Leak Diverter
- Female connection can be used to connect your hose to a drain, collection container or portable storage tank
- Pack contains enough connections to create 2 complete hoses (hose not included)
- Use with our TLSE162 Leak Diverter Bare Hose (sold separately)
