

Medical Absorbent Mat Pads

MATE1111 Lightweight, 50cm x 90cm, 80 pads

Prevent slips and falls in the operating theatre with super-absorbent Medical Mat.

- Keeps floors dry — poly-backing keeps floors safe and dry during wet operating procedures
- Ideal for hospital floors — contain and absorb spills from procedures like knee and hip operations where saline fluids are used in abundance for irrigation
- Super absorbent — made of a non-wetting top layer to keep the standing surface dry, a super-absorbent central layer and a non-slip backing that grips to the floor
- Reduce slips and falls — place with white, floor-gripping side down to add traction and reduce slip hazards
- Minimise tripping hazards — no more tripping over bunched-up blankets; increases focus on the patient and not the work environment
- Reduces clean-up time — can be easily lifted and disposed of after use
- Pre-cut pads are simple to use – place mat on clean, dry floor with white, floor-gripping side down to catch liquids as they accumulate; when mat is saturated, lift from floor and remove for disposal in accordance with local regulations
- Light-weight mat is only 1.3mm thick

Colour	Medical blue with white base layer
Dimensions	50cm W x 90cm L
Mat Weight	Lightweight
Fluids Absorbed	Water-Based Liquids Only
Absorbency	Up to 57.6 L per box
Perforated	Not Perforated
Sold as	80 pads per box
Weight	8.5 kg
# per Pallet	12

Composition

Top layer – Three-dimensional perforated LDPE;

Core - Air-laid cellulose with polypropylene;
Base layer – Polyethylene high-grip film

Packaging	Box
Poly-Backing	Yes
UV Resistant	No
