

## Medical Absorbent Mat

MATE1130 Heavyweight, 90cm x 50m, 1 roll

Prevent slips and falls in the operating theatre with super-absorbent Medical Mat.

- Keeps floors dry — poly-backing keeps floors safe and dry during wet operating procedures
- Ideal for hospital floors — contain and absorb spills from procedures like knee and hip operations where saline fluids are used in abundance for irrigation
- Super absorbent — made of a non-wetting top layer to keep the standing surface dry, a super-absorbent central layer and a non-slip backing that grips to the floor
- Reduce slips and falls — place with white, floor-gripping side down to add traction and reduce slip hazards
- Minimise tripping hazards — no more tripping over bunched-up blankets; increases focus on the patient and not the work environment
- Reduces clean up time — can be easily lifted and disposed of after use
- Simple to use – cut roll to length to fit your space; place mat on clean, dry floor with white, floor-gripping side down to catch liquids as they accumulate; when mat is saturated, lift from floor and remove for disposal in accordance with local regulations
- Heavy-weight mat is only 3.19mm thick

### Specifications

<b>Colour</b>	Medical blue with white base layer
<b>Dimensions</b>	90cm W x 50m L
<b>Mat Weight</b>	Heavyweight
<b>Fluids Absorbed</b>	Water-Based Liquids Only
<b>Absorbency</b>	Up to 166.5 L per bag
<b>Perforated</b>	Not Perforated
<b>Sold as</b>	1 roll per bag
<b>Weight</b>	14.4 kg
<b># per Pallet</b>	16
<b>Composition</b>	Top layer – Three-dimensional perforated LDPE; Core - Air-laid cellulose with polypropylene; Base layer – Polyethylene high-grip film
<b>Packaging</b>	Bag

**Poly-Backing**

Yes

**UV Resistant**

No
