Multi-Use Urine and Vomit Spill Kit

KITE370 Absorbs up to 24 L, 1 each

This complete spill kit is designed for use in areas where urine and vomit spillages occur frequently.

- The NQ64 Absorbent Granules in this spill kit are a special blend of absorbents that will quickly and effectively contain and absorb non-blood-stained body fluid spillages of vomit and urine
- The non-chlorine based granules avoid creating unpleasant odours when used on urine or vomit spills; each shaker bottle will absorb 300-400mL, depending on spill viscosity
- Included Scoops & Scrapers, and clinical waste bags, allow the granules and any solid matter to be easily recovered with a minimum of fuss
- NQ64 Granules can be used on all surface types and will not bleach soft furnishings or fabrics
- The individually wrapped Alcohol Surface Wipes can be used to disinfect the area affected by the spillage
- Ideal for use in healthcare facilities, schools, nurseries, residential care homes and other facilities where urine and vomit spillages are a frequent occurrence
- Note: Not to be used on chemical spillages or spillages visibly containing blood.

Dimensions	19cm W x 31cm L x 22cm H
Fluids Absorbed	Urine & Vomit
Absorbency	Up to 24 L
Lift-Out Basket	No Lift-Out Basket
Outdoor Storage	Not For Outdoor Storage
Sold as	1 each
Weight	1.45 kg
Composition	Absorbent Granules - Perlite, Sodium polyacrylate; Scoops & Scrapers - Plastic; Wipes - Isopropyl Alcohol;
