Nylon Lift Pump for 25-Litre Drums

PMPE145 For Light to Medium Oils, 100mL/Stroke, Fits Drums/Containers up to 25 ltr.

A versatile lift pump for smaller drums or containers, used to dispense a wide variety of liquids including oils, chemicals and solvents.

- Fitted with a universal, internal-clamp adaptor to fit into all 2” drum openings – works with any 2” opening as the drum bung thread is not used
- Dispenses up to 100mLper stroke
- Rigid riser tube is the perfect size for 20 and 25 litre steel or plastic drums
- Suitable for light to medium oils, diesel, kerosene, solvents and some chemicals
- Easy to install - simply unscrew the pump collar to close the three collar “legs”, insert the pump into the 2” drum opening, and tighten the pump collar to open the collar “legs” to pull the clamp tight around the inside of drum
