

PIG® Absorb-&-Lock™ High-Visibility Water Absorbent Pad

WTR004 For Water, For Leak-Prone Areas

Deploy these super absorbent hi-viz pads to absorb high volume leaks and drips in problem areas.

- Super Absorbent Polymer (SAP) filler swells on contact with water and expands to pull in large volumes of liquid quickly
- Absorbed water is “locked” inside; won’t leach or run out when you pick up or dispose, even when fully saturated
- Water absorbing pads are ideal for sewage and toilet backups and overflows and at the base of equipment, appliances and machinery
- Expanded pads create a barrier to help prevent further leaks and drips from escaping and spreading into walkways; also good to help stop water from seeping under doors
- Pads (before water contact) are low-profile to fit tight spaces; unobtrusive design won’t create trip hazards
- Leave pad down until fully saturated, then dispose
- Non-toxic and non-hazardous for easy disposal
- Printed with “Caution” symbol for added safety

Item#	Description	Dimensions	Weight
WTR004-OR	Orange	36cm W x 36cm L	.64 kg

Metric Equivalent:

Item#	Description	Dimensions	Weight
WTR004-OR	Orange		

Specifications

Height when fully saturated	5cm
Includes	(10) 35.5cm x 35.5cm Pads
Dimensions	36cm W x 36cm L
Fluids Absorbed	Water
Absorbency	Up to 40.1 L per package
Sold as	10 per package
Weight	.64 kg

Composition

Skin - Polypropylene;

Filler - Super Absorbent Polymer (SAP)

Application

Leak-Prone Areas
