

PIG® Absorb-&-Lock™ Water Absorbent Strip

WTR001 For Water, For Short Runs/Doorways

Deploy these super absorbent strips to absorb high volume leaks and drips in problem areas.

– Super Absorbent Polymer (SAP) filler swells on contact with water and expands to pull in large volumes of liquid quickly
– Absorbed water is “locked” inside; won’t leach or run out when you pick up or dispose, even when fully saturated
– Water locking gel mat strips are ideal for overflows and leaks at the base of equipment, appliances and machinery
– Expanded strips create a barrier to help prevent further leaks and drips from escaping and spreading into walkways; also good to help stop water from seeping under doors
– Strips (before water contact) are low-profile to fit tight spaces; unobtrusive design won’t create trip hazards
– Leave strip down until fully saturated when height reaches 7-8cm, then dispose
– Non-toxic and non-hazardous for easy disposal
– Printed with “Caution” symbol for added safety

Height when fully saturated	7.6cm
Includes	(10) 152cm Strips
Colour	Yellow
Dimensions	13cm W x 152cm L
Fluids Absorbed	Water
Absorbency	Up to 37.8 L per package
Sold as	10 per package
Weight	.56 kg
Composition	Skin - Polypropylene; Filler - Super Absorbent Polymer (SAP)
Application	Short Runs/Doorways
