

PIG® Acid Encapsulating/Neutralising Mat

MAT304-EU 28cm x 30cm, 25 pads

Absorb, encapsulate and neutralise corrosives in one easy step for safer spill cleanup. Colour indication identifies the best time to handle.

- Encapsulate and neutralise the most common acid spills; great for battery charging, transport and storage areas
- Colour changes as liquids are taken in, then remains in a colour-changed state when neutralisation is complete; helps identify the best time to handle with the least amount of risk
- Instantly absorbs up to 98% concentrations of sulfuric acid
- Gelling agents solidify acids during neutralisation; prevents them from leaching out of mat
- NOTE: Not for use with hydrofluoric acid

Colour	Mauve
Dimensions	28cm W x 30cm L
Fluids Absorbed	Acids
Absorbency	Up to 2.4 L per box
Perforated	Not Perforated
Sold as	25 pads per box
Weight	1.01 kg
# per Pallet	297
Composition	Polypropylene Fibre Sodium Carbonate & Alizarin (Contains No Hazardous Ingredients)
Packaging	Box
Poly-Backing	No
UV Resistant	No

Disclaimers

HazMat/Chemical Notice

To ensure effectiveness and your safety, we recommend that you conduct compatibility and absorption testing of your chemicals with PIG® HazMat Chemical products and PIG® Essentials Chemical products prior to purchase. If you have any questions or need samples to test, please call Technical Services.

Hydrofluoric Acid Notice

Not for use with hydrofluoric acid.
