

PIG® Acid Encapsulating/Neutralising Sock

PIG309 5cm x 122cm, Absorbs up to 5.7 L per box, 4 socks

Absorb, encapsulate and neutralize corrosives in one easy step for safer spill cleanup. Colour indication identifies the best time to handle.

- Encapsulate and neutralise the most common acid spills; great for battery charging, transport and storage areas
- Colour changes as liquids are taken in, then remains in a colour-changed state when neutralisation is complete; helps identify the best time to handle with the least amount of risk
- Instantly absorbs up to 98% concentrations of sulfuric acid
- Gelling agents solidify acids during neutralisation; prevents them from leaching out of sock

NOTE: Not for use with hydrofluoric acid.

Specifications

| | |
|-----------------|-------------------------|
| Colour | Mauve |
| Dimensions | ext. dia. 5cm x 122cm L |
| Fluids Absorbed | Acids |
| Absorbency | Up to 5.7 L per box |
| Sold as | 4 socks per box |
| Weight | 2.8 kg |
| # per Pallet | 240 |

Composition

Skin – 100% Polypropylene
Filler – Sodium Carbonate, Alizarin
