PIG® Build-A-Berm® Barrier T-Connector

PLR132 32cm x 47cm x 10cm, 2 each

Customise a semi-permanent barrier layout, including the option for dual containment areas separated by a shared centre line, using these crush-resistant T Connectors as part of your PIG Spill Berm design.

- Contain leaks and spills around your unique machinery setup or storage area dimensions without building expensive concrete curbs or cutting and installing angle iron
- Barriers can be constructed into a semi-permanent, high-visibility barrier that's exactly the size and shape you need; build it indoors or out
- Can be used to help create two separate containment areas with a shared centre line in order to take up less floor space
- Durable, 18 oz all-vinyl covering resists oils, coolants and most chemicals
- Pliable open-cell foam barrier springs back into shape after you walk or roll over it with light, wheeled equipment
- Can be cut to length with utility knife; for best installation results, secure to floor and then seal seams with Sealant (sold separately)
- High-visibility yellow colour draws attention to barrier for increased safety
- Easy removal requires only a flat-bladed shovel
- Great for use around battery charging stations, machinery or any other leak-prone areas

Style	Walk-on
Colour	Yellow
Dimensions	32cm W x 47cm L x 10cm H
Intended For	Use on Smooth Surface
Temperature Limit	-30°C (-22°F) to 71°C (160°F)

Sold as	2 per box
Weight	1.02 kg
# per Pallet	56
Composition	18 oz. Vinyl-Coated Fabric with Open-Cell Polyurethane Foam Core
