

PIG® Carbon Cartridge

DRM1150 For PIG® Aerosol Can Recycler or Aerosolv Can Puncturing System, 2 each

Replaces the carbon cartridge portion of the combination filter in your PIG Aerosol Can Recycler.

- Activated carbon captures odours and potentially harmful VOCs released by punctured aerosol cans
- Coalescing filters outlast carbon cartridges, so you save money by replacing only the carbon cartridge
- Timestrip indicator eliminates the guesswork of cartridge changeouts (Ideal operating temperature range 15-27 degrees C (60-80 degrees F)
- Cartridge life is 3 months
