

PIG® Crysta-lite Absorbent Granules

P45-1 For Oils, Coolants, Solvents & Water, Absorbs up to 18 L, 1 bag

An economical, light weight, non-combustible loose absorbent for spillages of water, oils, organic solvents, and most acids. PIG® Crysta-lite Absorbent will absorb many times its own weight.

- Can be used as an absorbent media in enclosed containers for the disposal of liquid toxic waste substances
- Remains granular, even when saturated, to provide excellent retention; stands up to heavy traffic without releasing liquids
- Material is quarried, crushed, processed and screened to create a particle size of 3.0mm to 6.0mm
- The “expansion” of the product generates countless tiny air bubbles within the structure creating the ultra light weight of PIG® Crysta-lite Absorbent
- High surface area and excellent, fast-absorption properties give Absorbent the ability to create a low-slip surface
- Chemically inert product is ideal for the absorption and removal of chemical spills, oil and water spillages on floors, nuclear waste, hazardous chemicals and more
- Non-toxic mineral product is safe to handle and use without any risk

Colour	White
Fluids Absorbed	Oils, Coolants, Solvents & Water
Absorbency	Up to 18 L per bag
Sold as	1 bag
Weight	3.5 kg
# per Pallet	70
Composition	Silicon, Aluminium, Iron, Sodium, Potassium, Calcium, Magnesium & Others
Volume	30 ltr. Bag
