

PIG® Drain Insert for Trash & Debris

FLT614 Filters Trash & Debris, For Storm Drains up to 76cm x 102cm & Round Drains up to 76cm Dia., 91cm x 122cm

Even in high-traffic areas, there's no easier way to control trash and debris - and avoid stormwater fines.

- Captures debris and trash to prevent overflow from storm drain clogging
- Below-grate design stays safe from high vehicle traffic in areas such as construction sites or car parks
- 46cm deep accumulation pocket captures debris and other contaminants
- Features excess flow port to prevent blockage during high water flow
- If oil skimming function is needed, see our PIG® Drain Insert and Drain Insert Plus with integrated hydrocarbon skimmers
