

PIG® Economy 2-Drum Poly Spill Containment Pallet

PAK605 Holds (2) 210 ltr. Steel Drums, 250 L Sump Capacity, 680 kg Load Capacity

This cost-effective drum pallet shares many features with our more expensive models - plus it's made from recycled content!

– These pallets may be economical, but they're strong enough to handle long-term storage of fully loaded steel drums
– Low-density polyethylene (LDPE) construction resists UV rays, rust, corrosion and most chemicals
– Textured grating adds traction and lifts out for easy sump access
– 2-way forklift entry allows easy movement from either direction (unloaded only)
– We test all of our PIG Containment Pallet designs at max load for months to ensure they can handle full capacity at your facility
