

PIG® FIRE-DRI

PLPE270 For Oils, Coolants, Solvents & Water, Absorbs up to 15 L, 1 bag

PIG® FIRE-DRI is a granular organic product, suitable for a wide range of industrial applications. With its fireproof property, it can be used for liquids and applications where the use of fire resistant products is desired.

- FIRE-DRI absorbent is a prepared mixture of natural resin wood dust, treated with inorganic chemical agents to impart fire-retardant properties
- After absorbing liquid spills, it leaves clean, dry and safe surfaces, free from oily sheen
- This fire-retardant material is capable of absorbing more than 3kg of oil per 1kg of product
- This natural, renewable resource absorbent has a low environmental impact since it can be eliminated by incineration
- Non-toxic material contains no silica and is safe to handle and use
- Non-abrasive, light-weight material is ideal for petrol stations, garages, airports, service companies, cleaning companies, railway stations, transport companies, emergency equipment, firemen, army and more

Colour	Green
Fluids Absorbed	Oils, Coolants, Solvents & Water
Absorbency	Up to 15 L per bag
Sold as	1 bag
Weight	6 kg
# per Pallet	70
Composition	Fire-retardant treated natural wood dust
Volume	30 ltr. Bag
