PIG® Grippy® Adhesive-Backed Floor Mat Starter Pack

GRPE36206 91cm x 7.6m, Absorbs up to 7.5 L

Get started with Grippy Mat! Test our adhesive-backed commercial floor mat against rubber-backed mats and rental mats in entrances, wet spots and transition areas. Perfect for grocery and retail environments.

– Adhesive-backed floor mat stays exactly where you put it with no shifting, bunching up or flipping over; traps dirt, salt and moisture to keep it from being tracked around
– PIG Grippy Floor Mat will stick to most common commercial floor surfaces, including: concrete, vinyl tile, ceramic tile, quarry tile and linoleum
– Proprietary adhesive sticks to the floor with a super-tight grip, but peels up easily
– Highly efficient absorbent top soaks in moisture and wicks it away from the centre to prevent puddling on the surface — liquid disperses evenly so the mat dries out quickly
– Extreme durability that stands up to heavy traffic — even forklifts — stays in place for up to 3 to 6 months, depending on conditions and traffic patterns
– Easy to use: roll out continuous walk-off coverage for entrances and walkways with no gaps, ripples or overlaps that cause slips and trips
– Easy to clean: you can sweep, vacuum, mop, use your shop/wet vac or run your floor scrubber over Grippy Mat and it won’t budge
– Easy to customise: lets you create custom-size floor mats for transition areas and wet problem spots
– Highly efficient absorbent top soaks in moisture, wicks and spreads it evenly so the mat dries out quickly — ideal for entrances and anywhere you need maximum absorbency for water
– 91cm x 7.6m regular mediumweight roll provides enough length to create continuous walk-off runners plus custom floor mats for transition areas and wet problem spots
– Installation Tool and Cutting Guide is a convenient, pre-scored cutting board that prevents damage to floors while it helps you make clean, accurate cuts, perfect corners and 45° angles
– Safety Cutting Knife with recessed blade and protective edges lets you make quick, clean cuts and avoid injuries

– Building Regulations Approved Document M states that floor surfaces should not impede the movement of wheelchairs (eg. not coir matting) and changes to the floor material should not present a trip hazard; at less than 3mm thick, Grippy Floor Mat is the thinnest commercial floor mat you can buy with no rippled or ramped edges to obstruct doors or create tripping hazards
– Only a fraction of the weight of rubber-backed mats: no more back strain when you change your mats
– Completely eliminates rental mat hassles and can save up to 50% per year over rental contracts
– PIG Grippy Floor Mat has a 91% lower environmental impact than rental floor mats (Please contact us for further details regarding the Life Cycle Assessment report.)
– PIG Grippy Floor Mat classified as slip resistance R12 according to EN 16165:2021 Annex B - suitable for use on floors in workrooms and work areas where there is an increased risk of slipping due to grease, oil, water, foods, left-overs, dust, flour, plant clippings, etc.
– PIG Grippy Floor Mat demonstrated a low slip potential under both wet and dry test conditions when tested to EN 16165:2021 Annex C
– Fire classification Bfl-s1 when tested according to BS EN 13501-1
– Tested and Certified by the National Floor Safety Institute (NFSI): when used as part of your floor safety program, high-traction surfaces such as PIG Grippy Floor Mat have been proven to reduce slip-and-fall claims by as much as 90%

Disclaimers

PIG® Grippy® Floor Mat Notice

New Pig adhesive-backed mats are formulated to work with most common industrial and commercial floor surfaces but are not intended for home/residential use and wood flooring. All adhesive mats have some potential to leave residue or lift or discolour

finish coatings, paint, and loose or pre-damaged tiles depending on the condition and age of the floor surface. If you have questions about the suitability of New Pig adhesive-backed mats for your application, test a 15 x 15cm piece in a non-critical area before use.

PIG® Grippy® Floor Mats should be replaced if they show signs of wear or damage and should always be changed out every 3 to 6 months, depending on conditions and traffic patterns.

Customer assumes the risk that a New Pig adhesive-backed mat may damage or alter their existing flooring or floor covering. Other than warranties implied by law, New Pig provides no warranty of fitness for a particular purpose and no warranty that an adhesive-backed mat will be fit for customer's intended use. Other than in respect of liability which New Pig cannot lawfully exclude, New Pig shall have no responsibility for, and customer hereby releases and discharges New Pig from, any direct, indirect, incidental or consequential damages to their floors, flooring material, or any other surfaces in their premises. Customer is solely responsible for determining the fitness and appropriateness of the use of New Pig adhesive-backed mats in their premises.
