

## PIG® HazMat Chemical Absorbent Dike

HA1010 13cm x 3m, Absorbs up to 68 L per box, 2 socks

Your biggest spills require the stopping power of our large-diameter hazmat dikes.

- Absorbs the widest range of acids, caustics and unknown liquids, even those with high concentrations like 98% sulfuric acid and 30% sodium hydroxide
- Chemical-resistant dike won't degrade or cause a dangerous reaction upon contact with corrosive spills
- Excellent for quickly diking and stopping the spread of larger chemical spills; for diking smaller chemical spills, consider our smaller diameter PIG HazMat Socks
- Polypropylene skin resists chemicals and tearing; reduces dust and holds in liquid, even when saturated
- Polypropylene filler is highly absorbent for containing corrosive or reactive spills
- Absorbs and retains most acids, caustics and unknown liquids
- Pink colour is easily distinguishable to assure workers use the correct dike during a spill emergency
- Can be incinerated after use to reduce waste
