

## PIG® HazMat Chemical Absorbent Mat Roll

MAT303 Heavyweight, 38cm x 46m, 1 roll

Specially-treated mats are the best on the market for absorbing highly concentrated corrosives like 98% sulfuric acid and 30% sodium hydroxide.

- Absorbs the widest range of acids, caustics and unknown liquids - even those with high concentrations like 98% sulfuric acid and 30% sodium hydroxide
- Chemical-resistant mat won't degrade or cause a dangerous reaction upon contact with corrosive spills
- Layers of 100% polypropylene are thermally bonded to make PIG Mat the strongest mat on the market; won't rip, tear or fray even when saturated
- Exclusive dimple pattern speeds wicking of liquid throughout mat for faster, easier cleanup
- Highly absorbent, fine-fibre construction won't leave behind liquids or fibre residue
- Absorbs and retains most acids, caustics and unknown liquids
- Pink colour is easily distinguishable to assure workers use the correct mat during a spill emergency
- Flame-resistant material won't burn immediately like untreated cellulose mats; melts when exposed to high heat whilst on the job
- Rolls are ideal for covering large areas and soaking up spills
- Heavy-weight construction is highly durable and absorbent for demanding tasks and large-volume cleanups

**Colour**

Pink

**Dimensions**

38cm W x 46m L

**Mat Weight**

Heavyweight

**Fluids Absorbed**

Acids, Caustics & Unknowns

<b>Absorbency</b>	Up to 76.2 L per bag
<b>Perforated</b>	Perforated Every 25cm Lengthwise
<b>Sold as</b>	1 roll per bag
<b>Weight</b>	7.3 kg
<b># per Pallet</b>	24
<b>Composition</b>	100% Polypropylene
<b>Packaging</b>	Bag
<b>Poly-Backing</b>	No
<b>UV Resistant</b>	No
