

PIG® HazMat Chemical Absorbent Mat Roll

MAT309 Heavyweight, 76cm x 46m, 1 roll

Specially-treated mats are the best on the market for absorbing highly concentrated corrosives like 98% sulfuric acid and 30% sodium hydroxide.

- Absorbs the widest range of acids, caustics and unknown liquids - even those with high concentrations like 98% sulfuric acid and 30% sodium hydroxide
- Chemical-resistant mat won't degrade or cause a dangerous reaction upon contact with corrosive spills
- Layers of 100% polypropylene are thermally bonded to make PIG Mat the strongest mat on the market; won't rip, tear or fray even when saturated
- Exclusive dimple pattern speeds wicking of liquid throughout mat for faster, easier cleanup
- Highly absorbent, fine-fibre construction won't leave behind liquids or fibre residue
- Absorbs and retains most acids, caustics and unknown liquids
- Pink colour is easily distinguishable to assure workers use the correct mat during a spill emergency
- Flame-resistant material won't burn immediately like untreated cellulose mats; melts when exposed to high heat whilst on the job
- Rolls are ideal for covering large areas and soaking up spills
- Heavy-weight construction is highly durable and absorbent for demanding tasks and large-volume cleanups

| | |
|------------------------|----------------------------|
| Colour | Pink |
| Dimensions | 76cm W x 46m L |
| Mat Weight | Heavyweight |
| Fluids Absorbed | Acids, Caustics & Unknowns |

| | |
|---------------------|------------------------------------------------------|
| Absorbency | Up to 152.4 L per bag |
| Perforated | Perforated Every 25cm Lengthwise & Centred Widthwise |
| Sold as | 1 roll per bag |
| Weight | 13.6 kg |
| # per Pallet | 12 |
| Composition | 100% Polypropylene |
| Packaging | Bag |
| Poly-Backing | No |
| UV Resistant | No |
