

PIG® HazMat Chemical Barrel Top Absorbent Mat

MAT355 Heavyweight, For 210-Litre Steel & Poly Drums, 25 pads

Shaped to fit on drum tops to keep them clean, these chemical absorbent mats last 2x longer than ordinary mats and are specially made for acids, caustics and corrosive spills.

- Soak up pump drips without cluttering up your workspace with dirty rags!
- Absorbs the widest range of acids, caustics, corrosives, chemicals and unknown liquids - even those with high concentrations like 98% sulfuric acid and 30% sodium hydroxide
- Chemical-resistant mat won't degrade or cause a dangerous reaction upon contact with corrosive spills
- Layers of 100% polypropylene are thermally bonded to make PIG Mat the strongest mat on the market; won't rip, tear or fray even when saturated
- Exclusive dimple pattern speeds wicking of liquid throughout mat for faster, easier cleanup
- Highly absorbent, fine-fibre construction won't leave behind liquids or fibre residue
- Pink colour is easily distinguishable to assure workers use the correct mat for chemicals
- Flame-resistant material won't burn immediately like untreated cellulose mats; melts when exposed to high heat while on the job
- Heavyweight construction is highly durable and absorbent for large-volume cleanups
- Fits 210-litre steel and poly drum tops; pre-cut with two 9cm holes to fit a variety of openings, even poly drums with dual 2" bungs
- Dispenser box makes it easy to take, carry and store your mat while protecting it from dirt and moisture

Use With	210-Litre Steel & Poly Drums

Colour	Pink
Dimensions	ext. dia. 56cm
Mat Weight	Heavyweight
Fluids Absorbed	Acids, Caustics & Unknowns
Absorbency	Up to 22.3 L per box
Pre-cut Holes	2 (3.5" Dia.)
Sold as	25 pads per box
Weight	2.7 kg
# per Pallet	62
Composition	100% Polypropylene
Packaging	Dispenser Box
Poly-Backing	Not Poly-Backed
