- Molded-in sump catches leaks, drips and spills to help you comply with regulations and keep your storage areas clean and safe
- Low height means loading and unloading require less effort and drum tops are within easier reach
- Low-density polyethylene (LDPE) construction resists UV rays, rust, corrosion and most chemicals
- Textured grating adds traction and lifts out for easy sump access
- 2-way forklift entry allows easy movement from either direction (loaded or unloaded)
- We test all of our PIG Containment Pallet designs at max load for months to ensure they can handle full capacity at your facility
