

PIG® Heavy-Duty 2-Drum Poly Spill Containment Pallet

PAK604 Holds (2) 210 ltr. Steel or Poly Drums, 250 L Sump Capacity, 2041 kg Load Capacity

The strongest pallets you can buy won't buckle or bow, even under the heaviest loads!

- Pallets won't buckle or bow; we test all of our PIG Containment Pallet designs at max load for months to ensure they can handle full capacity at your facility
- Strong enough for long-term storage of liquids with high specific gravities
- Innovative design transfers weight to load-bearing channels to maximise capacity
- Molded-in sump catches leaks, drips and spills to help you comply with regulations and keep your storage areas clean and safe
- Low height means loading and unloading require less effort and drum tops are within easier reach
- Low-density polyethylene (LDPE) construction resists UV rays, rust, corrosion and most chemicals
- Textured grating adds traction and lifts out for easy sump access
- 2-way forklift entry allows easy movement from either direction (loaded or unloaded)
- Black sidewalls to hide grime
