

## PIG® Heavy-Duty 3-Drum Poly Spill Containment Pallet

PAK213 Holds (3) 210 ltr. Steel or Poly Drums, 250 L Sump Capacity, 2041 kg Load Capacity

The strongest pallets you can buy won't buckle or bow, even under the heaviest loads! Guaranteed for life.

- The strongest, most durable containment pallets you can buy won't buckle or bow. We guarantee it.
- Strong enough for long-term storage of liquids with high specific gravities
- Innovative design transfers weight to load-bearing channels to maximise capacity
- Molded-in sump catches leaks, drips and spills to help you comply with regulations and keep your storage areas clean and safe
- Low height means loading and unloading require less effort and drum tops are within easier reach
- Low-density polyethylene (LDPE) construction resists UV rays, rust, corrosion and most chemicals
- Textured grating adds traction and lifts out for easy sump access
- 2-way forklift entry allows easy movement from either direction (unloaded only)
- Linear design fits perfectly along walls for easy access to each drum
- We test all of our PIG Containment Pallet designs at max load for months to ensure they can handle full capacity at your facility
