

PIG® Heavy Fluids Mat

MAT209 Heavyweight, 46cm x 56cm, 50 pads

Standard mats can't handle thick liquids - but these absorbents are specially designed to drink up paints, glues, resins and other viscous liquids.

– Thirsty air pockets absorb even the stickiest heavy liquids with only slight pressure
– Ideal for cleaning up paint spills, glues, resins, liquid chocolate, syrup and varnish
– Quickly absorbs thick, high-viscosity liquids that conventional absorbents can't
– Can also be used to filter metal chips and other large debris from liquids
– Pads are ideal for cleaning up smaller spills of thick liquids
