

## PIG® Oil-Only Absorbent Booms

BOM304 20cm x 3m, Absorbs up to 181.6 L per bag, 4 booms

Control oil spills on land or water with the field-proven performance of PIG Booms.

- Field-proven performance works in all conditions to absorb oil spills on land or water
- Floats to confine and soak up spills on water; hugs ground for land-based spills
- Tough outer mesh is UV resistant for long-term outdoor use without degradation; lets fluids easily pass through to filler material
- Rope running along length of boom withstands up to 182kg loads, adding strength for deployment and retrieval
- Spunbond polypropylene skin is UV resistant up to 12 months; meets ANSI and MIL spec standards for static decay
- Booms float at surface for easy retrieval, even when saturated
- Absorbs and retains oils and oil-based liquids - including lubricants and fuels - without taking in a drop of water
- Strong, zinc-plated carbon steel attachment clips and rings allow you to link booms together for greater length
- Bright white colour makes booms easier to see in outdoor environments and clearly shows saturation level
- Can be incinerated after use to reduce waste or for fuels blending
- When sea-weather condition is wind speed >5 knots & a (perpendicular) water-current speed >2 knots, this can cause oil absorbent booms to submerge, allowing oil to pass over them
- Waves higher than freeboard (above water) portion of boom will push oil over absorbent booms; optimal sea-weather condition for usage is typically Beafort Scale #2 or less

### Specifications

Colour	White
Dimensions	ext. dia. 20cm x 3m L
Fluids Absorbed	Oil-Based Liquids But Not Water

<b>Recycled Content</b>	98% Pre-Consumer Recycled Polypropylene Filler
<b>Absorbency</b>	Up to 181.6 L per bag
<b>Sold as</b>	4 booms per bag
<b>Weight</b>	20.64 kg
<b># per Pallet</b>	6
<b>Composition</b>	Polypropylene Sleeve & Filler; Polyester Netting; Plated Steel Rings & Clips

## Technical Information

### Certifications, Approvals and Ratings

ANSI/ESD STM11.11, MIL-STD-3010C
