

PIG® Oil-Only Absorbent Booms

BOM405 13cm x 3m, Absorbs up to 90.8 L per bag, 4 booms

Control oil spills on land or water with the field-proven performance of PIG Booms.

– Field-proven performance works in all conditions to absorb oil spills on land or water
– Floats to confine and soak up spills on water; hugs ground for land-based spills
– Tough outer mesh is UV resistant for long-term outdoor use without degradation; lets fluids easily pass through to filler material
– Rope running along length of boom withstands up to 182kg loads, adding strength for deployment and retrieval
– Spunbond polypropylene skin is UV resistant up to 12 months; meets ANSI and MIL spec standards for static decay
– Booms float at surface for easy retrieval, even when saturated
– Absorbs and retains oils and oil-based liquids - including lubricants and fuels - without taking in a drop of water
– Strong, zinc-plated carbon steel attachment clips and rings allow you to link booms together for greater length
– Bright white colour makes booms easier to see in outdoor environments and clearly shows saturation level
– Can be incinerated after use to reduce waste or for fuels blending
– When sea-weather condition is wind speed >5 knots & a (perpendicular) water-current speed >2 knots, this can cause oil absorbent booms to submerge, allowing oil to pass over them
– Waves higher than freeboard (above water) portion of boom will push oil over absorbent booms; optimal sea-weather condition for usage is typically Beafort Scale #2 or less

Colour	White
Dimensions	ext. dia. 13cm x 3m L
Fluids Absorbed	Oil-Based Liquids But Not Water
Recycled Content	98% Pre-Consumer Recycled Polypropylene Filler
Absorbency	Up to 90.8 L per bag
Sold as	4 booms per bag
Weight	9.7 kg
# per Pallet	8
Composition	Polypropylene Sleeve & Filler; Polyester Netting; Plated Steel Rings & Clips

Certifications, Approvals and Ratings

ANSI/ESD STM11.11, MIL-STD-3010C
