

PIG® Poly IBC Containment Unit with Bucket Shelf

PAK736 Holds (1) 1000 ltr. IBC, 1363 L Sump Capacity, 3632 kg Load Capacity

You can't buy a stronger pallet to store your totes in compliance. PIG is the toughest on the market.

- Strong enough for long-term storage of IBCs, this innovative design transfers weight to load bearing channels to maximise capacity
- Molded-in sump catches leaks, drips and spills to help you comply with regulations and keep storage areas clean
- Low-density polyethylene (LDPE) construction resists UV rays, rust, corrosion and most chemicals
- Textured grating holds a variety of IBC sizes; lifts out for easy access to sump
- Low profile for easy access to and dispensing from IBC tanks
- Two-way forklift entry allows movement from either direction when not loaded
- Attached shelf makes it neater and easier to dispense into 19-litre buckets or smaller containers
- Mini-sump is bulkheaded to main sump to drain away drips
