

PIG® Sheen Clean® Oil-Only Absorbent Sock

SKM600 8cm x 122cm, Absorbs up to 45 L per box, 12 socks

Proprietary filler cleans up waterborne spills entirely, even the thin, oily residue that's often left behind.

- Nobody knows more about socks than New Pig - we invented them!
- Proprietary filler blends high-capacity recycled cellulose with a copolymer that pulls in thin, filmy sheens of oil
- Ideal for long-term deployment to remove sheen after oil-based spills or absorb oil residue in retention ponds, catch basins, tanks and more
- Polypropylene skin resists tearing; reduces dust and holds in liquid, even when saturated
- Attached string allows socks to be tied down, tied together or dipped into tanks
- Absorbs and retains oils and oil-based liquids - including lubricants and fuels - without taking in a drop of water
- Bright white colour makes sock easier to see in outdoor environments and clearly shows saturation level
- Spunbond polypropylene skin is UV resistant up to 12 months; meets ANSI and MIL spec standards for static decay
- Can be incinerated after use to reduce waste or for fuels blending

NOTE: Not recommended for use with acids, caustics or other corrosive liquids

Specifications

Colour	White
Dimensions	ext. dia. 8cm x 122cm L
Fluids Absorbed	Oil-Based Liquids But Not Water
Recycled Content	90% Post-Consumer Recycled Cellulose Waste
Absorbency	Up to 45 L per box
Sold as	12 socks per box
Weight	7.7 kg

# per Pallet	24
Composition	Skin - Polypropylene Filler - Proprietary Blend of Hydrophobic Cellulose with Oil Absorbent Co-Polymers

Technical Information

Certifications, Approvals and Ratings

ANSI/ESD STM11.11, MIL-STD-3010C
