

## PIG® Spaghetti Booms

BOM402 20cm x 6m, Absorbs up to 181.6 L per bag, 2 booms

Surround and absorb high-viscosity oil spills on water. PIG Spaghetti Booms are tough enough for use in fast-moving water.

- Mesh skin and spaghetti strip filler design is ideal for pulling in thick oil or for use in fast-moving waters
- Tough outer mesh is UV resistant for long-term outdoor use without degradation; lets fluids easily pass through to filler material
- Rope running along length of boom withstands up to 182kg loads, adding strength for deployment and retrieval
- Boom floats at surface for easy retrieval, even when saturated
- Absorbs and retains oils and oil-based liquids - including lubricants, fuels and crude oil - without absorbing a drop of water
- Strong, zinc-plated carbon steel attachment clips and rings allow you to link booms together
- Bright white colour makes boom easier to see in outdoor environments and clearly shows saturation level
- Can be incinerated after use to reduce waste or for fuels blending
- When sea-weather condition is wind speed >5 knots & a (perpendicular) water-current speed >2 knots, this can cause oil absorbent booms to submerge, allowing oil to pass over them
- Waves higher than freeboard (above water) portion of boom will push oil over absorbent booms; optimal sea-weather condition for usage is typically Beaufort Scale #2 or less
- Note: Not recommended for use on land. PIG Oil-Only Absorbent Booms are recommended for land-based applications

### Specifications

Colour	White
Dimensions	ext. dia. 20cm x 6m L
Fluids Absorbed	Oil-Based Liquids But Not Water

<b>Absorbency</b>	Up to 181.6 L per bag
<b>Sold as</b>	2 booms per bag
<b>Weight</b>	17.69 kg
<b># per Pallet</b>	8
<b>Composition</b>	Polypropylene Filler; Polyester Netting; Plated Steel Rings & Clips
