

PIG® SUPER Absorbent Socks

PIG211 8.25cm x 53cm, Absorbs up to 91.2 L per box, 48 socks

The most absorbent sock in our lineup is great for high-volume machine leaks. Soaks up nearly twice as much liquid as other maintenance socks.

– Nobody knows more about socks than New Pig - we invented them!
– Extra-thirsty, formable socks hug corners and walls, surround higher-volume machine leaks and contain spills to keep workers safe
– Cellulose filler is highly absorbent for big leaks and spills; super absorbency means that you replace them less often
– Stitch-bonded, polypropylene skin resists bursting; reduces dust and holds in liquid, even when saturated
– Absorbs and retains oils, coolants, solvents and water; not recommended for acids, caustics or other corrosive liquids
– 85% recycled cellulose filler is ideal when green products are desired
– Wringable for reclaiming up to 65% of absorbed liquid
– Can be incinerated after use to reduce waste or for fuels blending

Colour	Grey
Dimensions	ext. dia. 8.25cm x 53cm L
Fluids Absorbed	Oils, Coolants, Solvents & Water
Recycled Content	85% Mixture of Pre- and Post-Consumer Recycled Cellulose Filler
Absorbency	Up to 91.2 L per box
Sold as	48 socks per box
Weight	13.38 kg
# per Pallet	16
Composition	Skin - Polypropylene; Filler - Flame-Retardant Cellulose
