

# PIG® Water-Activated Flood Bag

WTR045 30cm x 61cm x 6mm

Effortlessly place these super-absorbent flat bags that then swell up on contact with water, becoming a solid, heavy barrier to quickly dam and divert flooding.

- Stack these 61cm-long water-activated flood bags to create a retaining wall in flood-prone areas when water is coming
- Lightweight, compact and easy to handle before activated, unlike standard sandbags which are heavy, messy and labour-intensive
- Stack and stagger up to three rows high; build even higher retaining walls by using a pyramid layout
- Leave activated barriers in place for up to six months, as long as they stay saturated
- NOTE: Not for use with salt water and not to be driven over

<b>Dimensions When Fully Saturated</b>	30cm W x 60cm L x 7cm H When Fully Saturated
<b>Height When Fully Saturated</b>	7cm When Fully Saturated
<b>Ideal For</b>	Stacking, Retaining Walls
<b>Weight When Fully Saturated</b>	9kg each When Fully Saturated
<b>Colour</b>	Black
<b>Dimensions</b>	30cm W x 61cm L x 6mm H
<b>Fluids Absorbed</b>	Water-based liquids
<b>Absorbency</b>	Up to 348 L per package
<b>Temperature Limit</b>	Works from 0°C (32°F) to 82°C (180°F)
<b>Sold as</b>	40 per package
<b>Weight</b>	3.32 kg
<b># per Pallet</b>	84
<b>Composition</b>	Polypropylene outer fabric; Super Absorbent Polymer (SAP) Pulp filler
<b>Capacity</b>	8.7ltrs per Bag
