

Polypropylene Rotary Pump

PMPE137 For Oil Based Liquids, Detergents & Mild Corrosives, 35 ltr./Minute, Fits 210 ltr. Drum w/ 2" NPT/BSP Bung

A lightweight rotary drum pump manufactured out of the highest quality engineered plastics to provide excellent chemical resistance.

- Rotary operated for fast, easy dispensing of large volumes of liquid
- Rugged and hard wearing for frequent use
- No power source required - ideal for applications where you don't have access to electricity or compressed air
- Lightweight design can be broken down for compact storage or disassembled for easy cleaning
- Reversible rotary action dispenses up to 35 litres per minute (max.)
- 3-piece riser tube with threaded connectors creates a total riser length of 120cm – ideal for 210-litre drums
- Two piece outlet spout for dispensing
- Pump can also act as a syphon if required
- Suitable for water based solutions of acids, alkalis and salts, some organic solvents, water, and all petroleum products

Specifications

Use With	Oil Based Liquids, Detergents & Mild Corrosives
Outlet	25mm OD
Style	Rotary Operated
Colour	Yellow/Black
Sold as	1 each
Weight	2.9 kg
# per Pallet	245
Composition	Wetted parts: Polypropylene, Ryton, Viton, Polyethylene
Fits	210 ltr. Drum w/ 2" NPT/BSP Bung
Maximum Flow Rate	35 ltr./Minute
Maximum Viscosity	440 cSt, or SAE 30W Oil (@ 40°C)
