## ProShield Basic Coverall

KAP0040 Type 5 & 6, Stitched Seams, Zipper Front, Elastic Wrists & Ankles

A high breathability, certified Type 5/Type 6 chemical protection coverall made from a light weight SMS material with a great level of comfort.

- Breathable structure provides a barrier against non-hazardous dry particles (Type 5) as well as limited liquid splashes or sprays (Type 6), depending on toxicity and exposure conditions
- Ideal choice for workers requiring body protection against dirt & grime
- Suitable for general maintenance and operation manufacturing operations, especially in warm applications
- Features a 2-piece hood, elasticated face, wrists, waist and ankles, with stitched external seams and a nylon zipper with protective flap
