

Rags In Bags

WIPE603 10 kg, 1 bag

To soak up spills and wipe down surfaces, you want a rag that's both highly-absorbent and flexible. Recycled, coloured towelling Rags In Bags are perfect for any task that requires bulk and pliability.

- Made out of recycled, post-consumer, cotton-rich towelling and bathrobes
- Flexible, bulky, highly absorbent material is ideal for wiping, soaking up spills, cleaning hands or any other application requiring superior absorbency
- Environmentally conscious products give old textiles a new life as strong and absorbent Rags, limiting the amount of textiles entering landfills
- All Rags are free of printing and metal content; every Rag is usable
- Poly bag means there's no heavy packaging added into the final weight; you get more Rags than you would with box of equal weight
- Compression-packed to save storage space
- Typical industries include heavy engineering, transport, cable manufacturing, maintenance engineering and construction

Style	Laundered Before Processing
