

Reflective Tape for PIG® Spill Kit

PLS2000 For PIG® Spill Kits

Find your spill kit faster by marking it with high-vis reflective tape. Also ideal for marking floors or walls to designate where your kit should be stored.

- Durable, highly reflective glass bead tape maximises visibility in any lighting so you can find your kit fast; affix tape to lid, sidewalls or both!
- Apply to floors or walls to create a designated spill kit location to help ensure your kit is located where it should be
- Printed "SPILL KIT" legend repeats along length of tape to help increase awareness and encourage utilisation
- Strong adhesive backing secures tape to most clean, dry surfaces; conforms to irregular surfaces, indoors or out
- Resists oils, chemicals, weather and moisture; stands up to frequent cleaning in industrial settings
