

SHOWA 6784R Neoprene Gauntlets

WPL367 0.41mm, 355mm, 1 pair

A 355mm long forged gauntlet with rugged neoprene combined with a cotton flannel lining, the SHOWA 6784R is designed for comfort while providing protection against acids and caustics.

- Full Neoprene coating with rough texture finish over entire surface for enhanced grip
- A flexible glove that offers great dexterity and tactile feel, with good resistance to tearing
- Protects the hand from oils, hydrocarbons, grease and abrasion, with unrivalled, long living grip
- Impermeable for working in damp or greasy environments
- Wrist is well protected due to longer 355mm length and reinforced safety cuff
- Antibacterial and anti-odour treatment to cotton flannel lining slows the growth of mould and mildew; gloves stay fresher longer
- Available in one size only, 10/XL
- Typical industries and applications include Automotive, Chemical, Manufacturing, Oil & Gas, for changing oil, chemical handling, and handling oily components
- Recommendations for use - Store away from light and humidity; Rinse the gloves in running water before removing, using a neutral detergent if necessary; Do not wear gloves when there is a risk of entanglement by moving parts of machines
- Specific Chemical Protection EN374-3:2003; J – N-Heptane, 5; K – Caustic Soda, 6; L – Sulphuric Acid 96%, 6
