

SHOWA 730 Nitrile Gauntlets

WPL588 0.38mm, 330mm, 1 pair

Made from a special SHOWA nitrile compound, the SHOWA 730 is a lightweight, unsupported gauntlet that's resistant to a range of solvents, animal fats and other chemicals.

– Full Nitrile coating with bisque texture finish allows secure handling in wet and dry conditions
– A flexible glove with an anatomical shape that offers great dexterity and tactile feel to protect the hand from oils, hydrocarbons and grease
– Designed for easy movement and continuous wear, this glove is impermeable for working in damp or greasy environments
– Wrist is well protected due to longer 330mm length
– Flock-lining absorbs perspiration for enhanced comfort
– Lower allergy risks since the glove does not contain silicones
– Available in two sizes, 09/L and 10/XL
– Typical industries and applications include Agricultural, Automotive, Chemical, Contract Cleaning, Food, Municipal Services, Oil & Gas, for cleaning, chemical handling, degreasing, maintenance, refining, and tank filling
– Recommendations for use - Store away from light and humidity; Rinse the gloves in running water before removing, using a neutral detergent if necessary; Do not wear gloves when there is a risk of entanglement by moving parts of machines.
– Specific Chemical Protection EN374-3:2003; J – N-Heptane, 2; K – Caustic Soda, 2; L – Sulphuric Acid 96%, 2
